TESLA'S PURPLE PLATE

There are few experts in the world who are aware of Tesla's real greatness and huge potential of his unfinished work. In spite of that Tesla's material and spiritual inheritance has been investigated since his

death. Tesla's purple plate is one of the greatest practices accomplishment of these researches which has approved more than a million customers in the USA, from where Tesla's purple plate arrives to your hands.

We can join the universe harmony in menu different ways and one of them is the discovery inspired by Tesla's works, the purple plate made on the basis of Tesla's cosmos experiences and knowledge. Tesla's purple plate is today one of the best known remedies in alternative medicine. It has been invented in the USA. The violet or purple color presents the seventh ray and the violet flame, which is the healing ray of the rainbow spectrum.

Manu experiments and laboratory analysis show that Tesla's purple plate's atomic structure has been altered, so that it is in resonance with a high-frequency vibration of the life energy force, in a complex way connected with the known energy of negative ions. It possesses a field of energy capable of penetrating any living thing, plant, animal or human. Life energy or Prana can be measured in several ways. Measured by standard instruments, an average man will show 20 units, but if has Tesla's purple plate in hands, his energy will raise 90-95 units. Continuous use of the plate will raise the energy level to over 100 units. In that way the plate accelerates spiritual development and stimulates cells' regenerative processes.

CONTINUOUS USE OF THE PLATE

- raises one's personal vibrational frequency
- lessens nervous tension by placing the plate in the diaphragma region
- stimulates cells' regenerative process.

You will have more energy and you will tire less by placing the small size plate in a pocket or purse twice a day for about half an hour.

TESLA'S PURPLE PLATE IS PARTICULARLY EFFECTIVE

- for contusions; the wounds heal faster during the postoperative period
- in painful conditions
- for sciatica and rheumatism
- for strained arm or leg
- for vomiting (placed on stomach)
- for morning sickness during pregnancy -for stress

Some people put the plate in the pillow on the side toward the bed and, sleeping like this, they wake up more rested than ever. The plate can be used in this way once or twice a week. Other people are so sensitive to the plate's energy effects, that in these experiments, they could not sleep all night.

If you fix the plate over the gauze on a cut or burn, or fix it by plaster on any painful place treatment will be faster and the pain will disappear very soon. Experience and experiments show that the pain caused by slipped disk is the only one which cannot be eliminated by the plate's energy field.

Tesla's purple plates reduce and eliminate negative vibration in food, water and other liquids, even in tobacco, but for a very short period of time. It will be enough to put food on the plate for 15 minutes and a bowl with water for 2-3 minutes. Plate's energy works through any material except metals.

Plants watered by plate treated water grow much faster and have healthy color. Flowers will last double longer if we put the plate under the vase.

Tesla's purple plate is a small energy generator which, besides treatment, gives you a chance to make experiments in many other fields.

There are many mini-miracles that can be done by this plate (some of them you will discover all by yourselves), and its not possible count all of them. Time and future will show all great and useful possibilities of the huge Tesla' s works. Tesla's purple plate can not replace classic or alternative treatments. On the contrary, the purple plate should be used together with other treatments.
